## BRITISH-BORN SUBJECTS.

# Form X.

## Distribution of the Population according to Birth-place, arranged by Provinces.

The number of persons shewn as British-born in this form is less by 1,254 (732 males and 522 females) than is shown in the corresponding forms for British-born subjects for VI Civil Condition and XII Occupation.

This difference is caused by the provincial authorities in Burmah and Punjab having included in the two latter forms British subjects not Natives of India, but not born within the British Isles. In Form X only those enumerated as born within the United Kingdom are shown.
